❖ BACKGROUND

During the 2018 General Assembly and Information Exchange Forum in South Africa the ILA joined the Global Initiative “VISION ZERO” (www.visionzero.global) for safety, health and wellbeing at work, developed by the International Social Security Association (ISSA).

By committing to this successful international strategy, we intend to establish a culture of prevention at all the workplaces in the global lime industry. We will strengthen our efforts for better workplace safety, health and wellbeing towards zero accidents and work-related diseases.

In 2022 the first in-person ILA Health & Safety Award was celebrated with all award-winners, participants, jury members and several other ILA members.

By participating in the **ILA Health & Safety Award 2023** competition you can help to realize the vision of a healthy and safe working environment!

❖ WE NEED YOUR IDEAS!

By submitting your ideas and best practice solutions, you can contribute as well to a safe and healthy working environment and to the sustainability of the lime industry globally. Please join our **ILA Health & Safety Award 2023** competition and send us your innovative ideas and solutions, your successful campaigns, and your best practice initiatives.

❖ AWARD WINNING CATEGORIES - ILA HEALTH & SAFETY AWARD 2023

- 1. TECHNOLOGY:** Innovative technical solutions to avoid or minimize risks for health & safety
- 2. PREVENTION CULTURE:** New concepts and activities to stimulate health & safety culture, new solutions for sustainable organization and motivation for health & safety and measures to support a healthy workforce
- 3. HEALTH PREVENTION:** New measures and actions activate focusing on keeping people healthy, specific efforts aimed at reducing the development and severity or prevention of (chronic) diseases, morbidities, injuries and death.

❖ EVERYBODY SHALL JOIN!

Health & safety is not one woman's or one man's job - it is a concern of all! This means we are looking for ideas of individuals, teams, managers and leaders, experienced workers or experts and young workers who are new on the job.

The submitted ideas can vary from new technological developments to very simple activities to improve health & safety. Very often, the simple ideas are the most effective ideas - so please don't hesitate to submit your idea.

❖ DEADLINE AND SUBMISSION PROCEDURE

Please send us your ideas by June 30th 2023!

Please use the attached form to describe and specify your idea as concise and as clear as possible. The ideas shall be carried out and successfully tested and implemented. If you can add some pictures, a short video or drawings you will help the ILA Health & Safety Award Jury to understand your idea and evaluate it.

The Jury for the ILA Health & Safety Award needs to know why you came to this activity, how you solved the problem and what the result was.

ILA Health & Safety Award
2023
